

## Elton John White Tie & Tiara Pampering Days

To benefit the Elton John AIDS Foundation

**Elton John's White Tie & Tiara Ball is one of the most prestigious events of the year, raising millions of pounds for the Elton John AIDS Foundation.**

The White Tie and Tiara Ball Committee organised an exclusive "Pampering Package " for all VIP guests to raise further monies for the Foundation.

Guests chose from a range of treatments with skincare expert Karin Herzog, had their hair cut and styled by celebrity stylist Frederic Fekkai and makeup applied by the M·A·C Pro Team.

Cult Swiss skincare brand Karin Herzog has an enviable reputation for delivering advanced skincare results, and will be providing a select team of international experts, lead by Julie Cichocki (the treatment development director for Karin Herzog).

Exclusively launched at the Elton John's Aids Foundation pampering days, Karin Herzog previewed their brand new and revolutionary cranial-rejuvenation treatment, SPACE.

The SPACE treatment is a luxurious scalp and facial therapy that will rejuvenate, lift and brighten even the most sensitive of complexions whilst simultaneously nourishing, conditioning and treating the hair and scalp.

SPACE uses specially blended exotic oils including Monoi de Tahiti - based on an ancient Polynesian beauty secret – and fresh lemons and limes, which, combined with the Karin Herzog advanced patented formula are proven to oxygenate the skin leaving it looking radiant.

SPACE provides instant and visible results for both men and women and is totally in keeping with Karin Herzog's hands-on, healing approach to beauty that concentrates on the physical and the spiritual. SPACE is the must have pre-party skin care treat.
