The center of the flower shows several stamens with dark purple anthers and a central pistil with a reddish-purple stigma. The background is solid black, making the white and green of the flower stand out.

Karin Herzog Oxygen Treatments

Our overriding philosophy is as follows:-

'We aim to provide deeper therapy for real and sustainable results! To effectively and completely treat the face It is best approached via a 2 pronged attack and you must treat the body first before moving up onto the face. The body could well be the cause of the problem, and by working with the systems of the body as a whole, you are able to heal and restore well-being.

Additionally you should use effective cosmeceutical based skin care. Working in this way adds so much more to the therapy as the clients health and balance is restored taking salon based treatments to a new dimension'

Julie Cichocki
Karin Herzog UK

Treating the face via the body is more effective than treating the face alone. We believe in working with the body to provide the most advanced and holistic treatments available.

bodicial one

For acne, problematic and congested skin

Time: 1 hour

True to our ethos of treating the face **THROUGH THE BODY**, The Bodicial first treats, clears and stimulates the body's natural Lymphatic system; Developed for clients with a history of acne and breakouts.

This treatment incorporates an advanced upper body Manual lymphatic drainage massage to help the body to naturally detoxify itself and thus have heightened effects at clearing bacteria from the face following our clinically proven oxygen therapy.

The fusion of the Lymphatic massage and our World leading **Pore-Draw** extraction facial enables us to treat long-term problematic skins and achieve unprecedented results.

Breakouts are controlled and the skin begins a program of detoxification and clear-out. This treatment should be offered as a series of treatments for best effect, as results are cumulative: Clearing lymph of bacteria and skin of breakouts more and more with every visit on the path to clear and transformed skin.

bodicial two

For dry, mature, devitalised skins.

Time: 1hr 30 minutes

Recommended for all those who feel under the weather long-term; Burnt-out, over tired. Who show the signs of premature ageing on the face and who suffer from continual stress and anyone who has increased sensitivity from toxic overload or who feels unwell and in need of a real tonic!

Working on the premise that it is better to treat from the inside out for optimum results this treatment combines our medial grade manual lymphatic massage with either the smoothie or chocolate facial.

If the body carries too many toxins (Which build up with stress and is always associated with Low Oxygen), the face shows the signs of tension and fine lines appear. Left untreated these deepen with time develop into deep wrinkles that could easily be prevented. By removing excess bacteria and toxic waste from the body the face is instantly lifted, and the immune system is stimulated. Health and well being is greatly improved.

Energy levels are heightened for an extended period of time and the client will both look and feel much younger with a spring in her step and a flush of youth to her skin.

For optimum results we advise a course of treatments to ensure the lymph is completely clear.

Regular maintenance treatments should then follow every 8 – 12 weeks.

o₂ relax

Acupressure Pressure point massage

Time: 1 hour 45 minutes

This treatment uses our own specially developed pressure point massage which helps to nurture and relax the client, working specifically over meridians where energies are transported around the body.

Trapped negative energy is dislodged and replaced with a surge of real and positive energy.

A relaxing full body exfoliation using natural fruit enzymes of orange, bilberry, mandarin, grapefruit and grapes, and an oxygen and vitamin wrap guarantees smooth baby soft skin and re-energised tired limbs and joints.
